About us

MaObject has a multidisciplinary project dedicated to art, presenting varied programs that reflect creativity and diversity.

MaObject group provides a network dedicated to multidisciplinary art for the education and development of the individual. Although the main aim of our project is to increase the accessibility to art for the population in general, our main action is implementing an innovative program of educational intervention, with focusing in the two childhoods, respectively, children and seniors.

Annual MIX Event

The MaObject program, aims to increase visibility to contemporary art, bridging the gap between the world of art and culture worldwide. To that purpose holds an annual public event implementing a multidisciplinary project dedicated to art, presenting varied programs that reflect creativity and diversity.

This year the collective will have a MIX of authors and subjects. The theme will be **EX_POSITION | Past-Pass-Present** -existence, posture, position, attitude, life, living, being.
